

App Update

BYO Devices

Apps such as Ortesi Foot & Ankle are automatically updated by default. You won't see any notifications about updates, the update will simply happen automatically. But you can also manually force an update manually.

1. Open the App Store, then tap Today at the bottom of the screen.
2. Tap your profile icon at the top of the screen.
3. Scroll down to see pending updates and release notes. Tap Update next to an app to update only that App, or, tap Update All.
