

PREMIUM PORON SOFT TISSUE SUPPLEMENT

ortesi
3D printed braces & orthotics

PORON XRD (YELLOW)

High performance molecules that absorbs up to 90% of force upon impact.

PORON DIAB (LIGHT GREEN)

Rebounds extra slowly when compressed, especially suitable for Diabetic patients.

PORON PERF (PERFORATED)

Perforated for additional breathability.

PORON ONYX (BLACK)

Firm, high energy return and excellent impact absorption, especially suitable for demanding work and outdoor applications

PORON VIVE (BRIGHT GREEN)

Highly responsive cells reduce and redirect shock forces away from the foot and deliver a 'lift off' zone for maximum propulsion.

PORON SUPER SOFT (DARK RED)

Ultra soft, rebounds extremely slowly when compressed.

PORON PERFORMANCE (GREY)

High resistance to compression set, maintaining shock absorption for product life.

PORON 4000 (BEIGE)

Firm, energy absorbing grade with high energy return, especially suitable for heavier patients.

PORON DUAL (RED/BLUE)

Multifunctional performance combining durability and shock absorption with softness and comfort.

PORON MICROBAN
(DARK GREEN)

Advanced antimicrobial protection.
